To make money on Roblox is really hard for most gamers, because they need an account in order to sign up for an offer or do a daily ad. Also most offers only require 10 robux , which does not look like that much at all. The 100Robux app has made it easier to make money on Roblox. They may not give you 100 robux at once, but when you have 500 robux in game, another user may ask for 120 robux for an account or a shirt. That would be 60 robux profit. This lets me and other players make money off their skills, and in return they earn virtual currency which they can use to buy premium features or clothing for their character in the game that they are playing.

The site is very buggy due to the fact that user-created games are made in such a way that users can alter almost every aspect of any game. However, this has upsides too as users can fix most bugs themselves. They have often been taken down because they are "offensive". This is hard to believe since the site has been around for nearly 10 years. ROBLOX allows people to advertise on their site for just about any product they want and will let them earn money with it. However, this can be considered a bad thing in some cases, as advertisers can create "scams", such as charging people \$5 dollars to create a game that can only be played by Admins or other users with unusual settings/roles.

On February 16th, 2021, ROBLOX's main Twitter account was hacked by a group that goes by the name "RIP Roblox." This prompted some users to make spam on the forums. The group also hacked ROBLOX's official Twitch page. They claimed to be doing this because they found a security glitch that allows them to bypass site security and touch other people's accounts to steal their virtual currency.[19] They later stated that they were done with their attack and did not release the method of how they were able to bypass ROBLOX's security, as ROBLOX did not provide them with any compensation.

This may sound like a simple bug but there are so many people who want this fixed because it makes them very mad. When they are in a group with someone who they hate and they click the chat head and they try to type something and it doesn't show up. I know that there should be a way for them to see what they were typing but there is not. That's the only thing that bugs me about this bug because it makes people mad. What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.

Hacking Roblox is a problem that will always exist. This is because there are many different forms of hacking that are constantly evolving. One of the most common methods of hacking Roblox accounts today is through phishing. This method involves an email being tailored to look like it came from a trusted sender to gain access to a person's account and information such as passwords, usernames, mother's maiden name, Robux balance, etc. Another way that hackers hack into Roblox accounts is through using proxy sites. This method involves people using websites that offer their own proxies in order to hide their inputs and output information from the public eyes. People can hack a password by using the obtained information from other websites and then use an automated script to guess the password. This method is not only used for Roblox, but also for other accounts that are associated with games.
