I am writing about Roblox today because I am fairly new to the game and am trying to get used to it. I have had Roblox for about 6 months now, and I am sort of over it. However, I really love the game. It is a creative game where you can design an avatar and have a house to decorate. I just wanted to write this because I know there are a lot of people who have been searching for my story on Roblox. Everyone has their own opinions on the game, but as soon as I found out that my parents were coming to visit me on Friday, I found out that they were going to be seeing where I spend most of my time playing games online: namely <https://www.roblox.com/>. I was very and extremely shocked that I hadn't clicked on the site before this - it means I really could have been playing the game for a lot longer. A lot of my friends have played this game and now I'm starting to understand why they say it's such an addicting game!! I am writing about Roblox today because I am fairly new to the game and am trying to get used to it.

This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.

On July 15, 2021, Roblox apologized after a server error caused a character called Calvin to be subjected to harassment which included cruel messages. The harassment included being charged with child pornography even when the player was found innocent by law enforcement officials. In addition, this caused some users to temporarily change their username.

If that never happens then the servers are going to crash and the game will die. If you take a look at the way ROBLOX's developers are trying to make even more money, you will see that they do not want to add any real value to their games. They want people to spend real money for fake money (robux) so they're going to make it so that it's impossible for someone who doesn't pay for robux to exist within their virtual world.

Floating Balls! I have noticed that when you are at a group world and getting on people's chat heads they should be able to fly around like on normal. We need this because there are so many times where such a little bug would make these people mad if they were floating anywhere near them because they would not know what to say. Even though there are thousands of people in the group there should be more room for them to float. I think that there should be more than one chat head. I have seen people report this bug but it has not been fixed and I really want to see it fixed.

I like Roblox but it is still not better than Minecraft in my opinion because Minecraft has so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love Roblox but I still think that it could be way better, so here are some of my ideas: 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing that I don't like about Roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier
