On September 5th 2021, ROBLOX targeted a large amount of its users by adding in-game ads on most games for free. Players would be given an ad in the bottom right corner of their screen with the option of clicking it to see more games. This is very similar to how Facebook and Google ads work, however, the Roblox ads cannot be clicked on and are only meant as a distraction. Users would need to leave the game before seeing the ad again or wait until they lose interest in playing any other game. The new system was rolled out in large parts making users question ROBLOX's integrity as a company.

Here is where things get a little confusing but stick with me for a second and I'll link things together for you. When you get Robux gems and tokens from winning games, there is no value in the items you receive. There is no way to spend those items on anything in this game because they don't have any value. You can't sell them, you can't trade them for anything, they don't have in game money attached to them, etcetera.

There are many ways to earn these ROBUX, but the most efficient way is through the sale of items on the game marketplace or through microtransactions. how do you get free robux on roblox

The way Roblox works is by creating an account. In this account, you will be able to make your own avatar that you can customize to look however you want it to. With this avatar, you can go on to explore the different places and games in roblox. You

can interact with other players that you meet in the game and even chat with them. There are many different categories of games that you can choose from to play and I like this because you have a lot of options to choose from. One thing that I think is great about Roblox is that you do not need to pay any money to play it all the time. This is because you can buy Robux in order to use it for building purposes or for upgrading your avatar. This is great because rather than just paying and continuing to play, if people don't want to pay they don't have to.

ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.
